

CompTIA Security +

Course Contents

Book 1

Introduction

Topic A: About the Manual defined.	Error! Bookmark not
Topic B: Security+ certification	vi
Topic C: Setting your expectations	vii
Topic D: Using the VLC	viii

Mitigating threats **1-1**

Topic A: System maintenance	1-2
Topic B: Application security	1-19
Topic C: Physical security	1-24
Topic D: Malware	1-33
Topic E: Social engineering	1-42
Unit summary: Mitigating threats	1-52

Cryptography **2-1**

Topic A: Symmetric cryptography	2-2
Topic B: Public key cryptography	2-16
Unit summary: Cryptography	2-33

Authentication **3-1**

Topic A: Authentication factors and requirements	3-2
Topic B: Authentication systems	3-9
Topic C: Authentication system vulnerabilities	3-22
Unit summary: Authentication	3-34

User- and role-based security **4-1**

Topic A: Baseline security policies	4-2
Topic B: Resource access	4-15
Unit summary: User- and role-based security	4-23

Peripheral security **5-1**

Topic A: File and disk encryption	5-2
Topic B: Peripheral and component security	5-12
Topic C: Mobile device security	5-20

Unit summary: Peripheral security 5-29

Book 2

Public key infrastructure 6-1

Topic A: Public key cryptography 6-2

Topic B: Implementing public key infrastructure 6-10

Topic C: Web server security with PKI 6-31

Unit summary: Public key infrastructure 6-37

Application and messaging security 7-1

Topic A: Application security 7-2

Topic B: E-mail security 7-10

Topic C: Social networking and messaging 7-26

Unit summary: Application and messaging security 7-32

Ports and protocols 8-1

Topic A: TCP/IP basics 8-2

Topic B: Protocol-based attacks 8-20

Unit summary: Ports and protocols 8-38

Network security 9-1

Topic A: Network devices 9-2

Topic B: Secure network topologies 9-20

Topic C: Secure networking 9-32

Topic D: Virtualization and cloud computing 9-41

Unit summary: Network security 9-50

Wireless security 10-1

Topic A: Wireless network security 10-2

Topic B: Mobile device security 10-25

Unit summary: Wireless security 10-29

Book 3

Remote access security 11-1

Topic A: Remote access	11-2
Topic B: Virtual private networks	11-16
Unit summary: Remote access security	11-28

Vulnerability testing and monitoring 12-1

Topic A: Risk and vulnerability assessment	12-2
Topic B: Auditing and logging	12-10
Topic C: Intrusion detection and prevention systems	12-15
Topic D: Incident response	12-28
Unit summary: Vulnerability testing and monitoring	12-33

Organizational security 13-1

Topic A: Organizational policies	13-2
Topic B: Education and training	13-22
Topic C: Disposal and destruction	13-27
Unit summary: Organizational security	13-31

Business continuity 14-1

Topic A: Business continuity planning	14-2
Topic B: Disaster recovery	14-9
Topic C: Environmental controls	14-22
Unit summary: Business continuity	14-27

Appendices

CompTIA Security+ acronyms	A-1
Topic A: Acronym list	A-2
Course summary	S-1
Topic A: Course summary	S-2
Topic B: Continued learning after class	S-5
Glossary	G-1
Index	I-1
