- Topic A: Content searches
- Topic B: Windows Help and Support
- Unit summary
- Independent practice activity

Windows settings

- Topic A: The desktop and Start menu
- Topic B: Taskbar and display settings
- Topic C: System settings
- Unit summary
- Independent practice activity

System tools

- Topic A: Performance
- Topic B: Hard disk maintenance
- Topic C: Backups
- Unit summary
- Independent practice activity

Software

- Topic A: Working with programs
- Unit summary
- Independent practice activity

Windows security

- Topic A: User accounts
- Topic B: Windows Firewall
- Topic C: Automatic updates
- Topic D: Malware
- Unit summary
- Independent practice activity

Windows networking

- Topic A: Basic networking
- Topic B: Network connections
- Topic C: Advanced file sharing
- Topic D: Printer sharing
- Unit summary
- Independent practice activity

Web browsing basics

- Topic A: Browsing the Web
- Topic B: Internet basics
- Unit summary
- Independent practice activity

Browsing with Internet Explorer 7

- Topic A: The Favorites Center
- Topic B: Tabbed browsing
- Topic C: Searching
- Unit summary
- Independent practice activity

Customising Internet Explorer

- Topic A: Customisation
- Topic B: Zooming, saving and printing
- Topic C: Add-ons
- Topic D: Multimedia content
- Unit summary
- Independent practice activity

Internet privacy and security

- Topic A: Privacy
- Topic B: Security
- Unit summary
- Independent practice activity

Printing

- Topic A: Windows printing
- Topic B: Managing print jobs
- Topic C: Inkjet printers
- Topic D: Laser printers
- Unit summary
- Independent practice activity

Display devices

- Topic A: External monitors
- Topic B: Integrated monitors
- Unit summary
- Independent practice activity

Connectors and adapters

- Topic A: Serial and PS/2 connections
- Topic B: USB and FireWire
- Unit summary
- Independent practice activity

Multimedia devices

- Topic A: Devices and drivers
- Topic B: Audio devices
- Topic C: Scanners and cameras
- Unit summary
- Independent practice activity

Processors and memory

- Topic A: The Central Processing Unit
- Topic B: Memory
- Topic C: Memory packaging
- Topic D: Memory monitoring
- Unit summary
- Independent practice activity

Data storage devices

- Topic A: Optical drives
- Topic B: Removable storage devices
- Topic C: Hard drives
- Unit summary
- Independent practice activity

Network basics

- Topic A: Network concepts
- Topic B: Wide area networks
- Unit summary
- Independent practice activity

Networking protocols and connections

- Topic A: Addressing
- Topic B: Client configuration
- Unit summary
- Independent practice activity

Network security overview

- Topic A: Introduction to network security
- Topic B: Understanding security threats
- Topic C: Creating a secure network strategy
- Unit summary
- Independent practice activity

Safety

- Topic A: Safety and hazards
- Topic B: Electrical safety
- Topic C: Safe work practices
- Topic D: Disposing of computer equipment
- Unit summary
- Independent practice activity

Computer hardware care and maintenance

- Topic A: Environment
- Topic B: Preventive hardware maintenance
- Unit summary
- Independent practice activity

Course summary
